

CSR-GHRDC Engineering College Survey 2011

Male-Female Faculty Ratio in Participating Engineering Colleges

	Males	Females
No. of Male-Female Faculty	13107	7049
Male-Female Faculty Ratio	65%	35%

Male and Female tend to play different economic roles in the workplace today. The gap between Male & Female education is a long standing attribute of the global economy. The Table and Graph above displays the results found in the GHRDC-CSR survey. The above representation indicates the growing role of Female in education field, particularly in engineering.
